TCS10

THEORETICAL CHEMISTRY SYMPOSIUM 2010

December 8 - 12, 2010

Indian Institute of Technology Kanpur

The twelfth Theoretical Chemistry Symposium(TCS10) is being hosted by IIT Kanpur. TCS is a biennial symposium wherein most of the theoretical chemists from India congregate to have intense discussions in different aspects of theoretical chemistry. The tradition of TCS is crucial to the growth of theoretical chemistry in India. TCS is being held in IIT Kanpur for the first time since 2000. Our intention is that TCS10 will bring in new collaborations and help foster/reinforce mutually beneficial scientific relationships. TCS10 will focus on the frontiers of theoretical chemistry and in this context several recognized national scientists and a few foreign scientists will be invited to participate. Moreover, the TCS meetings are a great motivation for students and young researchers and TCS10 hopes to continue this tradition by encouraging their active participation.

Registration Deadline: October 31, 2010

Convener (IIT Kanpur):

Amalendu Chandra

Co-Conveners (IIT Kanpur):

K. Srihari

Madhav Rananathan

Nisanth N. Nair

Local Organizers (IIT Kanpur):

D. Goswami

G. Anantharaman

J. K. Bera

Pratik Sen

R. N. Mukherjeee

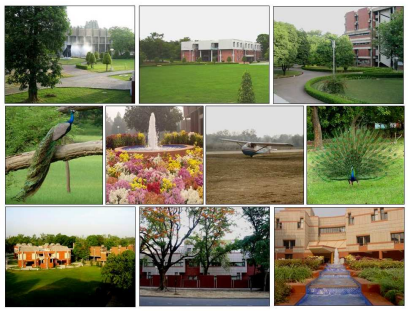

R. Ramapanicker

S. Manogaran

S. P. Rath

S. R. Gadre

S. Sundar Manoharan

Contact:

Prof. Amalendu Chandra

Department of Chemistry

National Advisory Committee:

B. Bagchi (IISc)

B. Jayaram (IIT Delhi)

B. L. Tembe (IIT Bombay)

B. M. Deb (IISER Kolkatta)

C. Chakravarty (IIT Delhi)

E. D. Jemmis (IISER Tvm.)

K. L. Sebastian (IISc Bangalore)

M. Durga Prasad (Uni. Hyderabad)

M. K. Mishra (Uni. of Lucknow)

N. Sathyamurthy (IISER Mohali)

S. K. Pati (JNCASR Bangalore)

D. Mukherjee (IACS Kolkata)

P. K. Chattaraj (IIT Kharagpur)

S. Ramasesha (IISc Bangalore)

R. Ramaswamy (JNU Delhi)

Sanjay Kumar (IIT Madras)

S. K. Ghosh (BARC Mumbai)

Susanta Mahapatra (Uni. Hyderabad)

S. Pal (NCL Pune)
