

## Assignment 36

Please watch Lesson 36 and Tutorial 36 before attempting this assignment.

### Part A

1. What is the role of prefixes and suffixes in a language?
2. Describe the different roles of the prefix 'a' with examples.
3. Write a few suffixes that form  
(i) nouns, (ii) verbs, (iii) adverbs, and (iv) adjectives.
4. Which suffix can form both nouns and adjectives? Give examples.
5. What is the difference between 'advice' and 'advise'? Give another pair of words which have a similar connection.

6. What is the role of the suffix 'er'? Give examples.
7. How is a complex sentence different from a compound sentence?
8. Give two examples of complex sentences where the subject is a noun clause and the predicate is much shorter.
9. What is the difference between a clause and a phrase?

## Part B

Pick up **5 complex sentences** (each with at least 15 words) for analysis, possibly out of the 20 complex sentences collected by you as part of Assignment 32, or by replenishing it by further search.

For each of them,

- parse the sentence, i.e. break it into its constituent parts and analyse the sentence as done in Lesson 36,
- work out the skeletal structure of the sentence as in the prescription of Assignment 26, and
- in this skeletal structure, frame a new sentence of your own.
