

Curriculum Vitae

Ram started his career as an engineer with the then Ministry of Environment (ENV) in 1988. He was initially involved in the development and management of waste disposal facilities in Singapore. He was later appointed Chief Engineer (Energy Conservation) in 2003 and Director (Energy Efficiency & Conservation) in 2011 at the National Environment Agency (NEA). He currently oversees energy efficiency policy and programme implementation for the manufacturing, public and households sectors.

Ram studied Production Engineering at the Hamburg University of Applied Sciences, Germany, under a Public Services Commission scholarship and graduated in 1986. He holds a Master in Business Administration from the National University of Singapore. He was awarded the Public Administration Medal (Bronze) in 2002.
