

# Department of Mechanical Engineering: BT-MT Dual Degree Program (New-ARC)

The guidelines for application and the criteria for the admission to the BTech-MTech Dual Degree program in Mechanical Engineering are given below.

## For UG students from Mechanical Engineering seeking the program change to dual degree MTech in Mechanical Engineering:

1. Students can apply for the program change at the end of 6th semester till the first day of registration for the 8th semester of the UG program (only the semesters a student has attended are counted, semester drops are excluded).
1. CPI of 7.0 and above (up to the semester with available data) satisfying the other criteria will be accepted automatically. However, students with CPI 6.5 and above may also apply and their application will be considered as special cases. The department may wish to carry out interview for such students and the final decision will be made by the DUGC.
2. Students should have cleared all compulsory courses at the time of application. Backlogs in COM200, Department communication, and PE courses may be allowed.
3. Students applying after the start of 7<sup>th</sup> semester will have to take BTP1 and BTP2. **None of these courses can be dropped.** BTP2 can be considered as a DE (**not BTP1**).
4. Application for the program change should be made to the Chairman, SUGC along with the recommendations from the Convener, DUGC, ME.

## For UG students from outside Mechanical Engineering seeking the program change to dual degree MTech in Mechanical Engineering:

2. Students can apply for the program change **at the end of 6th semester only** of the UG program (only the semesters a student has attended are counted, semester drops are excluded).
3. Maximum intake of students: 20% of strength.
4. Criteria for selection: CPI of 7.0 and above subject to the availability of seats. However, students with CPI 6.5 and above may also apply and their application will be considered as special cases. The department may wish to carry out interview for such students and the final decision will be made by the DUGC.
5. Students should have cleared all compulsory courses at the time of application. Backlogs in COM200, Department communication, and PE courses may be allowed.
6. Application for the program change should be made to the Chairman, SUGC through the Convener, DUGC of the parent department.
