Welcome to the **IIT Kanpur Certification Program on PYTHON for Artificial Intelligence (AI), Machine Learning (ML), and Deep Learning (DL)**. The program will include extensive PYTHON projects using practical real world datasets using numerous cutting-edge packages such as **NUMPY, LINALG, MATPLOTLIB, PANDAS, SCIKIT-LEARN, TENSORFLOW, KERAS**. This 4 week online certificate program is an intensive school for scholars, students, faculty members, industry professionals and R&D staff aspiring to get an in-depth exposure and learn hands-on implementation of the cutting edge algorithms and software for **AI/ ML, Neural Networks (NN) and Deep Learning (DL)**. The program also includes problem solving sessions to prepare for tests/ job interviews.

Benefits of this program:

- Learn the latest programming techniques in PYTHON to gain an unbeatable edge in placements
- Use PYTHON, and various packages to establish virtual labs or for project guidance
- Take your skills to the next level by learning PYTHON, and various packages and practical data sets
- Learn PYTHON programming to master the latest AI/ML Technologies

Target Audience

- B.Tech/ BE/ B.Sc/ BBA/ BCA students
- M.Tech/ ME/ M.Sc/ MBA/ MCA students
- Ph.D. scholars pursuing research
- Few exceptional class XI/ XII students
- Faculty of Engineering/ Science/ Management
- Professionals from Industry and R&D Organizations
