The following issues were discussed in MSWC meeting that was held on 5th April, 2013:

1. Directing of mails through Convener, SBRA by all members of MSWC and residents:

To discourage the practice of sending mails either to all the Residents or to all MSWC members any Resident or by any MSWC member, it was decided that all mails ought to be routed through the convener, SBRA. This would prevent any communication between two or more parties from going out of bounds and creating unnecessary breach of trust as well as confidentiality.

2. Fixing of price guidelines for washing of cars that belong to SBRA Residents:

The price guidelines for washing of Cars were discussed, and the amount of money for certain number of washes per week was agreed upon which is 150/- for 4 washes per month. This was done to curtail unevenness in payment for car washing within SBRA.

Kindly note the fixing of rates and number of times of car washing are just the guidelines. MSWC cannot enforce these guidelines as rules. These guidelines are negotiable between the residents and their helper. MSWC only intends to ensure that the wastage of water is minimal and we maintain some semblance of uniformity in pay and to keep the ever increasing ceiling limits in check.

Minutes of the MSWC meetings, henceforth will be put up on the SBRA web site.
