

Eligibility & shortlisting criteria for MTech. Programme in 2025-26 Sem I

The MTech eligibility criteria are as follows:

(i) A Bachelor's degree in Engineering or Science (4-year programme) or a Master's degree in Science with marks/CPI not below the specified minimum. Specified Minimum marks/CPI (Cumulative Performance Index) implies a minimum of 55% marks / 5.5 (on a 10-point scale).

(ii) A valid GATE score is required for admission to the MTech programme in the case of regular (non-sponsored) candidates. The requirement of GATE score is waived off for the candidates with the B.Tech/BS (Four Year) degree from IITs with a minimum overall CPI of 6.5 and a minimum CPI of 8.0 in the last two years in B.Tech/BS (Four Year).

- MTech applications are shortlisting based on the GATE score/ as applicable.

Valid applications satisfy the criterion given here https://www.iitk.ac.in/see/files/Eligibility-criteria_and_admission-process_to_PG_Programs_in_2025-26_Sem-I.pdf

a) The Selection Process for MTech for GATE applicants was carried out based on the following stages.

1: Strike out and highlight all GATE paper codes and corresponding scores that are incompatible with SEE allowed paper codes.

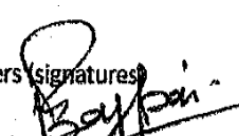

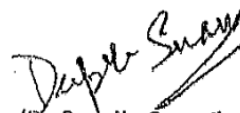

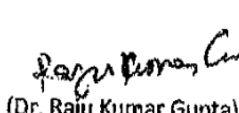

2: Assigning a Maximum Gate Score:

If the Maximum Gate Score (MGS) of a candidate corresponds to a paper code (PC) that is acceptable across all specializations of the department, then we keep that GATE score and disregard the rest.

3: The applications were sorted on the basis of qualifying degree. Engg. Stream: Bachelor in Engineering, Bachelors in Technology; Science Stream: Others (M.Sc. etc).

4: Arrange within each category scores in descending order and choose the cutoffs. The cutoffs were then applied as per the table given below.

5: Prepare a merit list for each category based on the selection

 (Dr. Deepika Swami)	 (Dr. Lalit Chandra)	 (Dr. Sudarshan Narayanan)	 (Dr. Raju Kumar Gupta)

6: Prepare a joint merit list, which includes the science and engineering streams (from this we can read the result table - how many from each category were sorted).

7: Sort this resulting list in descending order of merit score. This is the final merit list with all candidates sorted by merit irrespective of paper code or category.

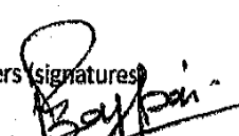

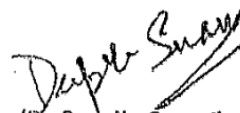

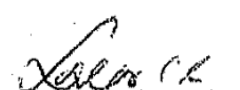

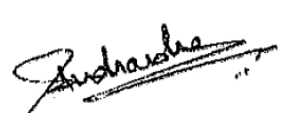

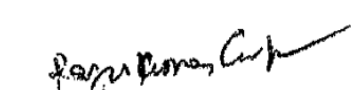

Results: Based on the algorithm described above, we have shortlisted 208 candidates (including both Engg and Science streams) with GATE score and the distribution given below. The merit list is attached with this report.

b) The Selection Process for MTech for non-GATE applicants was carried out based on the following algorithm

There are 3 applications, and since these are from IITs with CGPA well above 7.5, the committee has decided to give them admission.
